Direct from the USA and after sell out shows in North America, Abstract Entertainment presents this unforgettable tribute to the biggest names in Country Music.

Phillip Bauer has been recreating Johnny Cash's sound and the look since 1985, his uncanny natural resemblance and stage presence leaving audiences spellbound. He mines the legendary Johnny Cash catalogue, Folsom Prison Blues to Ring of Fire, and presents them with the same intensity as the man in black.

Marion Deaton as Willie Nelson is a road savvy musician with a 30-year track record as a drummer, bandleader, and singer. Over the years he has appeared with hundreds of music greats including Neil Sedeka, Roy Orbison, Gene Pitney, and Percy Sledge. Marion recreates Willie Nelson's greatest hits spanning four decades of musical rebellion and excellence leaving audiences of all ages delighted!

Marty Edwards as Kenny Rogers is no stranger to Australia, having toured twice before to enthusiastic audiences. Marty has the looks, sound and charisma that is all Kenny – and of course, he is endorsed by the man himself!

Three spirited performers on stage together with their own band make The Kings of Country a must see show.
